At least last fall, when I was studying for the full FRM exam Schweser didn't offer his clients the ability to get their FRM study notes in PDF format. It seems that now a year of access to the Bionic Turtle is costing \$399 compared to \$1,118 for PremiumPlus for Schweser's levels 1 and 2. If I did that again, I would use BT as my preparation material and consulted the book to clarify doubts about difficult concepts and could be Schweser for review. In the next page "The selections are from some of the main minds of the camp. If you want to get anything from the assigned readings, this is a book I buy. With BT, you receive PDF files that you can print or read on your computer. I used Schweser as my primary preparation material and diverted the questions from the exam passed in the handbook. I referred only Schweser and this also only for a week! I used Turtle Bionic and Schweser. I have not found a better study provider than Schweser for the CFA. Same as MonkI. The Student Solution Manual, after the exam, and can recommend the book. Also, I found the Basel II readings in Schweser left out a lot after I went through the original document on vacation. Schweser all the way. CFA All 3 levels, FRM Full and CIAA Level 1., which again makes you feel confident about breaking the FRM exam. The second pass was with Schweser (I shared it with my friend), so I had enough time to swerve to see if BT lost anything and, to my surprise, for the most part BT was much better at explaining (similar to Stalla for CFA), so I religiously took a lot of qbank and at some point, I realized that qbank is another update test and so I started doing practice exams - I spent the last 3 weeks doing only exams (BT QNS, Schweig Simulated Examinations and FRM Exams) I had a lot of QNS in the Handbook, but I never had time for togo ... my 2c: use bt to understand the concepts use schw to give up through the - use as a review material f.
